ROCKIN’ & CHILLIN’
Yes, we all scream for ice cream—and the best in the U.S. is here in our region! Climb up on a big old-time rocking chair and enjoy farm-fresh ice cream at Valley County Creamery in Fond du Lac, recently recognized by Good Morning America as “The Best Ice Cream in America.” More sweet treats await at Frogg’s Ice Cream and The Chubby Seagull in Sheboygan, the Ice Cream Station in Horicon, Scoops Ice Cream in Chilton, and Gilles Frozen Custard in Fond du Lac.

A NIGHT OUT
Love art? Love music? Love good times? You can find it all here. Take in internationally acclaimed visual art and live performances inside and out at the stunning Thelma Sadoff Center for the Arts (THELMA) in Downtown Fond du Lac. Get inspired with the Waupun Fine Arts, entered at the Calumet County Community Theater, and relax with wine and music at Vines & Rushes Winery in Ripon.

JUST ADD WATER
Our region is filled with lakes offering great opportunities for nature and thrill seekers of all kinds. One of the country’s largest inland lakes is right here in our region, too—the mighty Lake Winnebago. It’s your playground for summer and winter fun!

SAY CHEESE
When it comes to producing delicious, award-winning Wisconsin cheese and other farm-fresh dairy products, there’s no place like our region. Our dairy heritage, culture, and pride run deep, and our traditions of cheesemaking and dairy manufacturing are second to none. Commune with an adorable baby goat at LaClare Family Creamery and enjoy shopping and delectable foods! More cheese can be found at Widmer’s Cheese Cellars in Theresa, Baker Cheese in St. Cloud. Vern’s in Chilton, Henning’s in Kiel, and Knaus Cheese in Rosendale.

SOMETHIN’ SWEET
We’re sweet on the Fond du Lac area for good reason, and you will be, too. Start with some vital, exhaustive research on the region’s best homemade candy. Is it Confections for Any Occasion by Joel in Theresa? Guth’s Candy in Waupun? The Candyman on Pioneer in Fond du Lac? Or any of the many more candy shops and stops awaiting you. Mmm, research is delicious.

SUMMERTIME AND THE LIVIN’ IS EASY
Summertime is definitely the high season for festivals in our region! It seems that nearly every weekend has a festive vibe that brings with it exciting new events paired with activities that have stood the test of time and remain on the locals’ social calendars year after year. June is the grandaddy of them all, Walleye Weekend—equal parts family fun, live music; and, of course, walleye! Waupun comes alive in the summer with its signature events, including Celebrate Waupun, the Truck-N-Show, and Volksfest. Fond du Lac’s Downtown District hosts what is widely considered the world’s foremost celebration of fondue during Fondue Fest just as summer segues to fall.

BACK IN TIME
The history of our region was written hundreds of years ago. Start your day by springing to shunkpe and travel the scenic roads between the Niagara Escarpment overlooking the mighty Lake Winnebago over to the “Everglades of the North,” Horicon Marsh. Then get your history on by exploring the Carriage Museum at the Wade House before walking the shaded sidewalks of the Galloway Historic Village among the lovingly restored buildings of yesteryear and the Little White Schoolhouse in Ripon. Check out more history at the Timm House in New Holstein, Malone Area Heritage Museum in Malone, and the Calumet County Historical Society Museum in Chilton.

WINTER FESTIVAL!
There’s something about the prehistoric, predator-looking sturgeon that brings out the best of Fond du Lac—as well as thousands of visitors. So plan to redefine family fun with a very heavy dose of that brings out the best of Fond du Lac—as well as thousands of visitors. So plan to redefine family fun with a very heavy dose of...
“There are a lot of community collaborations and events that shed light on various causes here. Thelma Sadoff Center for the Arts (THELMA) is a really vibrant and contemporary space that hosts some of these events. And during the workday, I just need to go to THELMA’s gallery and wander through the space to feel rejuvenated. Thursdays are a cool open-bar evening (at THELMA)—a nice reminder of all our community has to offer.”

Returning home for a career opportunity after college, Jenny continually meets people who reinforce her good decision to call the region home again. “Once you dive in and get to know the people—and connect them to the various destinations—there’s something really special in this place. A sense of feeling welcome and comfortable with like-minded individuals.”

As a part of the planning team for two recent TEDx events hosted at Thelma, Jenny shared that Downtown Fond du Lac as a whole is an attraction, too. “We leveraged the greater Downtown District in our planning to give attendees a sense of all there is to offer here.”

About 30 miles outside of Downtown is a new treasure Jenny recently discovered called SoLu Winery in Cascade. “It’s a beautiful place. And what’s really awesome is they offer live music on the outdoor patio. But what I love most is the connection to an area [animal facility] that allows dogs to swim on the property and jump around from one place to the next. Many people bring their own dogs, too. It’s an awesome place.”

“Having a connection to fun, contemporary, trendy things while also being able to simply turn around and take a hike, be outdoors, that’s the right mix for me.” A perfect mix that Fond du Lac readily delivers.

LAKE WINNEBAGO
The great lake
Lake Winnebago is a 131,919-acre lake located in Fond du Lac, Calumet, and Winnebago counties. The structure of Lake Winnebago is quite unusual. Although it covers 225 square miles, it is quite shallow. At its deepest, the lake drops to a mere 21 feet. Walleye fishing in the Lake Winnebago system is good, but perch fishing is also outstanding. But we can't forget about the lighthouse! Lake Winnebago was a haven for boating, fishing, water skiing, stand-up paddle-boarding, and wind surfing. In the winter, Lake Winnebago turns into a mini city on the ice during the sturgeon spawning season and also becomes a great place for ice fishing, snowmobiling, and ice kiting.

The large menu also includes fresh seafood, chicken, and pork—as well as a Wisconsin tradition, the Friday Night Perch Fry.

Big into canning, the Fond du Lac Farmers Market is tops on Sara’s culinary list. While her husband selects kohlrabi to be pickled (and later enjoyed in Bloody Mary’s), it’s Annie’s Fountain City Cafe booth that’s captured her daughter’s heart. “Annie and Gary are amazing people. Theirs is the first place my daughter likes to visit. Then she picks our flowers.”

Following the market, Sara’s family often pops into Fat Joe’s, where Joe is always quick to ask how each customer is doing. Just like Terri at Urban Fuel, a hot new venue with a funky vibe offering coffee, wine, appetizers, and live music around a fireplace.

Today, many area restaurants provide options for diners with dietary limitations. A favorite of Sara’s is TJ’s Harbor on the western shores of Lake Winnebago just north of Fond du Lac. “They have an amazing gluten-free menu, including cheese curds and the best Old Fashioneds.” For a gorgeous salad that is always in season, trust the Farmers Market fan and try one of Ala Roma’s. “Their salads are huge and just beautiful.”

Friar Tuck’s is a dining tradition in the region. “It’s a nostalgic place I used to go to with my parents. And when my husband and I were first dating, we would go there. Returning after being away for a few years, the waitress remembered us.” That’s Fond du Lac service.

One of the best food festivals of the summer is Walleye Weekend at Lakeside Park, where the sunsets are as vibrant as the all-day musical entertainment and the food as varied as the family-friendly activities. Just as Sara’s beloved Farmers Market begins to transition for fall, Fond du Lac extends the length of the market (by several city blocks) to make room for the annual Fondue Fest. A celebration of everything fondue, the festival includes a run/walk; musical entertainment; and, of course, a fondue eating competition.

LODGING
“I would encourage someone to openly share their experiences spending time and money in the Lake Winnebago Region. This area has wonderful retail variety that continues to grow; these retailers are our neighbors, our friends, and our family. When we support our small businesses, we support the health and growth of our community.”

Having lived all over the country, most recently on the east coast and in Florida, Jenelle and her family made a choice four years ago to call Fond du Lac home. “There’s nothing like the Midwest. The people are warm. The pace of life is enjoyable. Everything is close and accessible, and to me, that’s what makes Fond du Lac desirable.”

When describing the perfect day to explore Lake Winnebago Region’s retail treasures, Jenelle mapped a round the lake trip with three distinct stops, ending in a vibrant Downtown shopping district that is home to clothing boutiques delivering big-city fashion with exceptional personal service.

#1 – LaClare Family Creamery, known for the evening goat milking ritual that kids of all ages enjoy, the creamery has an on-site cafe and shoppe selling artisanal soaps and cheeses that make a perfect gift for any discerning recipient. “They take care of and love on [the goats], and we can love on them, too. Our kids just love it here.”

#2 – The Plaid Squirrel is a fun place with pieces from local artists. It’s a relatively large store and a unique destination. Notably, in early fall The Plaid Squirrel partners with other galleries to create a driving tour of neighboring galleries. This studio tour is a great opportunity for shopping, too. “It gets people to go to places they wouldn’t necessarily go to organically.”

#3 – The Downtown cluster of dynamic art spaces, including Ubuntu Art Space, Riverwalk Art Center, and Langdon Divers Community Gallery, offers artistic retail finds.

Closing out the day is a must stop at Ledgerock Distillery. Specializing in small-batch spirits, this destination has generated considerable buzz in the short time since opening in June 2018.

In 1986, our President, Stuart Muche, founded a community focused company with the basic principle that; “No project is complete until the customer is completely satisfied and comfortable recommending us to their family and friends.” This focus has allowed Stuart’s Landscaping & Garden Center to grow from a single location/crew in 1986 to an industry leader with three locations serving all the Fox Valley, Green Lake, and surrounding areas. Stuart’s success stems from the dedication we provide our customers and the satisfaction we bring to each one of them.

Candice Hayward
Local Radio Personality, Sunny 97.7FM Fond du Lac

“Rock hunting for ‘Fondy Rocks,’ something we love to do, gets us outside exploring to places like the police station, fire station, library; it helps our kids become familiar with our community.”

RECREATION

Fortunate to live Downtown, where there is so much to explore within walking distance, Candice and her family often pedal the Fond du Lac Loop, stopping for a rewarding A&W Root Beer treat along the way. “We really enjoy our local parks. This is a fun place to raise a family, where you can feel safe and good about it.”

A bit farther out of town, several nurseries provide endless hours of exploration for Candice’s youngest green thumbs. Their favorites are Haentze’s Floral, Stuart’s Landscape, and Hounsell’s Greenhouse.

Two additional destinations are Meuer Farm and The Little Farmer “Both offer a multitude of activities that can keep your kids moving for hours. Especially in our digital society, it’s important to get kids outside and exploring their community.”

Year-round, Fond du Lac is hopping with festivals that Candice’s whole family finds fun to participate in—Walleye Weekend, Sturgeon Spectacular, Art All Around, and Fondue Fest to name a few.

The Children’s Museum is a year-round recreation destination for children and families. “It’s a great place for kids to run, and it is a godsend in the wintertime.” The programming is extensive, including some of the Hayward family’s favorites: Music, Museum & Me, science drop-in with ever-changing science experiments, and the new fire truck exhibit. Partnering with Annie’s Fountain City Cafe, the Museum even offers a culinary kids class.

Beyond biking and other outdoor adventures, Fond du Lac is home to a beautiful YMCA with a swimming pool and lessons that Candice’s family enjoys year-round.

As each new day dawns in rural America, a way of life lived by some, but unknown to most of us, begins. It surrounds us here in beautiful Fond du Lac and the Lake Winnebago Region, the business of Agriculture—the backbone of our country.

The Fond du Lac area’s agritourism is all about connecting with Wisconsin’s heritage and making it your own. Local farms are buzzing with activities to keep you busy and entertained. Whether picking a wide variety of fruits and vegetables, such as strawberries, raspberries, pumpkins, apples, and squash; dining at the farm and enjoying a farm-to-table experience; or even taking part in the daily routine of chores tending to the farm, there’s always something to see, do, and eat from locally grown Fond du Lac.

Agritourism is a way of sharing the farm story with the community by offering the opportunity to engage people in the discussion of local food production and the importance of family farms in the region. On some farms that welcome visitors, the goal is less about providing a unique vacation and more about fostering a deeper understanding of the farming process through education and hands-on experiences.

Many have opted to connect with nature and experience life in the country on their summer vacation or while taking a trip to get away from it all. In most cases, such trips allow individuals, couples, and families to experience country living up close and personal.

The best part? It’s easy to experience all of this and much more right here in beautiful Fond du Lac and the Lake Winnebago Region. We welcome you and your family to experience a fresh, delightfully different way of living, working, and playing. You’ll have the chance to meet genuine people, taste farm-fresh flavors, pick your own fruits, pet farm animals, and much more—making your trip here an adventure everyone will love and remember.

Joe Venhuizen
Director of Membership, Envision Greater Fond du Lac
Fond du Lac

“There is a significant economic resurgence coming with the Hotel Retlaw property. This will be a watershed moment for Downtown. It will bring a luxury experience to the heart of Downtown.”

Already dubbed a “don’t miss” place in the heart of Downtown, the ripple effect that the Hotel Retlaw is having on adjacent properties is notable in this very walkable Downtown. With a rich history of hosting presidents, all guests at the Hotel Retlaw are made to feel special. And that’s a feeling that’s palpable throughout the Downtown, especially in the uptick of upscale business neighboring Hotel Retlaw.

“Around the corner from the Hotel Retlaw is a community gem—Thelma Sadoff Center for the Arts (THELMA). Visitors and residents owe it to themselves to spend a little time here. Thelma draws a great crowd of people interested in the arts. And hosts a number of unique events and experiences that, I believe, are important when you are seeking to attract the new workforce interested in quality of life experiences.”

Just down the street is the Fond du Lac Farmers Market, Saturdays May–Oct. “Ours is second to none. It is a great community gathering point. There’s a variety in what you see, hear, and smell.”

The premier outdoor dining place Downtown is Fat Joe’s, where you can enjoy a vast menu alfresco atop the rooftop patio. Then head to the Downtown YMCA to work-off those calories in a group fitness class. “The YMCA is so much more than just a gym. It’s a community gathering point that offers Les Mills classes, group cycling, and open gym for zero- to six-year-olds—which will come in handy with my 8-month-old son.”

In any Downtown there is a certain churn of ideas. “The mark of a good community is that it does not stagnate. We don’t in Fond du Lac. We have systems in place to continue to fill our Downtown storefronts.” And Joe is optimistic that this growth will continue. It is just one of the many reasons his family has planted their stake in this ground. “I’m very optimistic about my son’s future here.”

Lake Winnebago Region

Something New to Discover at Every Turn from LAKE to LEDGE and WOODS to WETLANDS

What do you get when a glacier shapes an escarpment that stretches 1,000 miles to Niagara Falls; carves a basin leading to the escarpment that stretches 1,000 miles to the Great Lakes; leaves its tracks and landforms in and around a forest; and recedes, leaving a wetland of international importance? From ledge to lake to woods to wetlands—you get the Lake Winnebago Region with Fond du Lac in the center of it all.

THE LAKE: WISCONSIN’S (THIRD) GREAT LAKE

Lake Winnebago is one of the country’s largest freshwater inland lakes and holds the unique distinction of being situated entirely within the state’s boundaries—a rarity for such a large body of water. Visitors are always surprised by the sheer size of the lake, which takes nearly 80 miles to circumnavigate.

Locals and visitors alike know Lake Winnebago to be custom made for those that enjoy the boating, fishing, and outdoor lifestyle.

There are two seasons of fishing on Lake Winnebago: hard-water and soft-water season. Add to the “typical fish story” the fact that Lake Winnebago is home to the world’s largest self-sustaining lake sturgeon population in the world and you realize quite quickly this is a very special ecosystem. Speaking of sturgeon, Fond du Lac, Wisconsin is known as the Sturgeon Spearing Capital of the World and each year holds a massive, rollicking, quirky winter festival on the second weekend of February to ring in the sturgeon spearing season.

Lake Winnebago’s proximity to the Niagara Escarpment and relatively shallow average depth mean that it is an ideal venue for wind sports, so whether your thing is sailing, windsurfing, or ice skating, this is a bucket-list destination. As a past and future host of the World Ice and Snow Sailing Championships, Lake Winnebago was recently dubbed by race participants as the “Kiting Mecca of the World!”

And finally it needs to be said that sunsets on our mighty lake are simply sublime…

THE LEDGE: NIAGARA ESCARPMENT

The Niagara Escarpment is a prominent rock ridge that spans nearly 1,000 miles in an arc across the Great Lakes region, forming the ancient “backbone” of North America to western New York State, where Niagara Falls cascades over it, giving the escarpment its name. “The Ledge,” as locals refer to it, is located just east of Fond du Lac and is part of the Niagara Escarpment. People enjoy hiking and extreme bicycling across portions of this beautiful area.

For centuries, Native American tribes, the original settlers of the landscape, considered the escarpment a sacred place. Whether used for settlement, as a guide for travelling, or for religious purposes, it was a revered and important element of these cultures—proven through archeological and historical research, some dating back 10,000-12,000 years ago. More modern historic structures, such as lime kilns, cemeteries, and churches, exist and are important as well.

THE WOODS: KETTLE MORAINE STATE FOREST (NORTHERN UNIT)

Kettle Moraine State Forest (Northern Unit) is comprised of about 30,000 acres stretching 30 miles across Sheboygan, Fond du Lac, and Washington counties. It is said that nowhere is the glacier’s mark upon the land more impressive than in Wisconsin, namely the Northern Unit of the Kettle Moraine State Forest, internationally known for its famous glacial features and fascinating diversity of plants and animals.

The forest is managed for multiple use. Highlights include the Henry S. Reuss Ice Age Visitor Center, to learn about the area’s world-famous glacial landscape and all the forest has to offer; Mauve Lake and Long Lake Recreation areas; bicycling and hiking the more than 150 miles of trails, part of the Ice Age National Scenic Trail; and, for a high altitude view of this beautiful area, look for the Parnell Tower.

THE WETLANDS: HORICON MARSH

Often referred to as the “Everglades of the North” and as a Wetland of International Importance by the United Nations, Horicon Marsh has a unique and important story to tell. The geologic features of the area, created by our last ice age, were instrumental in providing resources for wildlife and humans alike. The human history of the Horicon Marsh is rich with culture, and the wildlife present today at the Horicon Marsh is the result of geologic and human activities, including modern-day wildlife management. Horicon Marsh is the largest freshwater wetland marsh in the U.S. and was selected for inclusion in the Ice Age Reserve because it is an outstanding example of an extinct post-glacial lake. Public naturalist programs are conducted at the marsh during the spring and fall seasons and focus on the area’s geology, history, and wildlife.

Over the years, approximately 300 species of birds have been sighted at Horicon Marsh. On a spring day, it is not unusual to find up to 100 species of birds on Horicon Marsh!
